

## EDITORIAL

To speak of research is to put the subject in connection with knowledge, a subject systematically created and contrasted in the process of training students at the university, which leads us to implement formative research models. The students are trained in the different cycles of learning, which culminates in the defense of their research work or degrees. The generation of knowledge is also evidenced by the research carried out by lecturers, which concludes in an intellectual property, patents or manuscripts to be published in scientific journals and thus comply with the process of knowledge dissemination.

We have seen how the new knowledge generated in these spaces grows, is disseminated and shared in academic settings, but rarely impacts the place where the idea was generated, where the problem was detected, leaving the last link in the research process pending: the transfer of knowledge.

At the university we are designing mechanisms to optimize this transfer process, to have a model and subsequently a system of knowledge management, which facilitates and strengthens such transfer to the social and business environment of the country. We are aware that we are the university that contributes the most research work to the ALICIA repository, so it is our obligation to see how this is materialized in a model of transfer and technological surveillance that aims to achieve an impact on the quality of life of the country's communities.

Based on the previous idea, we share with you some activities carried out in the Vice-Presidency of Research, validating one of our functions: to disseminate and promote scientific knowledge.

**Dr. Jorge Adrián Salas Ruiz**  
Vice-President of Research

## INTERNATIONALIZATION OF RESEARCH AT THE UCV

### USTA: INTERNATIONAL CONGRESS OF RESEARCH AND UNIVERSITY SOCIAL RESPONSIBILITY

The Universidad César Vallejo (Cesar Vallejo University) was invited to participate in the International Congress on University Research and Social Responsibility, which will take place on November 3 and 4 of this year. This space will be for dissemination, presentation and discussion of research and social responsibility, as well as promoting the opportunity to attend seminars and conferences within the framework of the celebration of the USTA Social Responsibility Colombia.

## DOLPHIN PROGRAM - VIRTUAL STAY XXV SUMMER OF SCIENTIFIC RESEARCH AND PACIFIC TECHNOLOGY 2020

The Dolphin Program proposed the Virtual Stay XXV Summer of Scientific and Technological Research of the Pacific 2020, which is why Universidad César Vallejo received 26 Mexican students from the Universities of Guadalajara, Autónoma de Nayarit, Mexiquense del Bicentenario, who have joined teaching projects whose lines of research were of interest to them. The 26 interns were received by 05 researchers from our university from Lima Norte and Chiclayo campuses. All the interns had access to the virtual library of our university during the seven weeks of the internship. The interns carried out a virtual work plan, which upon completion, reached significant achievements as scientific articles for publication.

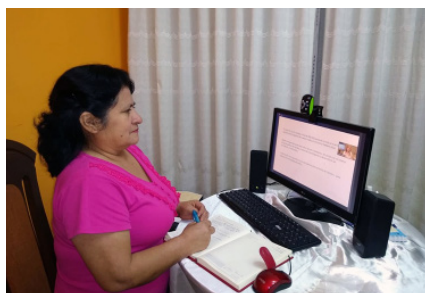

## UCV INVITED TO EFI RESEARCH GROUP

Cesar Vallejo University was invited to take part as a university in a research that has been developing the EFI Group - promoted by Consolidated Group GIPE made up of three Catalan universities (Universitat Autònoma de Barcelona, Universitat de Barcelona, Universidad a Manresa-FUB)- and universities from Mexico, Colombia and Peru, which have initiated a Research "stress and digital skills during remote emergency teaching" (ESHADIER).

In this sense, the Vice-Presidency of Research of the UCV, by means of Official Letter N°223-2020/VI-UCV, accepts the invitation to participate in such research, for which three (03) researchers have been appointed.

With this experience, it is sought to form an international network; the UCV researchers linked to the project will take part in webinars to discuss results and share comments with other participating universities; and, UCV will be able to publish individually or together with other universities.

## UCV INVITED TO INTERNATIONAL TRAINING COURSE ON THE USE OF THE CENTRALINE VIRTUAL CLASSROOM

The Universidad Central del Ecuador (Central University of Ecuador) invited the César Vallejo University to participate in the INTERNATIONAL TRAINING COURSE ON THE USE OF THE CENTRALINE VIRTUAL CLASSROOM, PHASE II, which aims to promote quality of pedagogical practices in organizational processes and implementation of virtual learning environments to guarantee the development of an active socio-educational process, capable of promoting the exchange of knowledge, experiences and fundamental values in professional training in the different fields of knowledge. Professor Juan Pablo Moreno Muro participated in this event with the lecture: "Pedagogical Dimensions of Virtual Learning Environments", which took place on Tuesday, August 18th.

## INTERNATIONAL GATHERING OF SEMILLEROS

Author: Dr. Henry Lazarte

The technologist, architect Henry Lazarte Reátegui and his architecture students from Lima Norte campus of the UCV participated in the II International Gathering of Scientific Research Semilleros (young researchers) organized by the National University Toribio Rodríguez de Mendoza (UNTRM - PERU), presenting avant-garde and innovative research projects with a multidisciplinary and transdisciplinary approach, where the citizen is valued.

The projects were: Intelligent educational spaces for secondary school students in Ventanilla district (Anderson Quiroz), Digital school segregation of children from Castro Castro hill in San Juan de Lurigancho district (Gian Nolasco R. ), Productive housing for female heads of households in Santa Rosa district (Doris Higido), Urban agriculture in Carabaylo district (Lisbeth Condori), High performance spaces for gamers in Los Olivos district (Yimi Crisologo), Intelligent tourist destination of the native community Ese' Eja de Infierno in the province of Tumbes (Pierina Gomez).

## INTERINSTITUTIONAL COOPERATION AGREEMENT BETWEEN THE UCV AND THE UNITEC UNIVERSITY CORPORATION

CÉSAR VALLEJO UNIVERSITY and the UNITEC UNIVERSITY CORPORATION have signed a Framework Agreement for Inter-Institutional Cooperation aiming at promoting an institutional relationship to bring together technical, scientific, academic and administrative efforts to implement their research and strategies for the socialization of knowledge and to contribute to the construction and appropriation of new knowledge in the field of higher education. Among the objectives of the agreement are:

- Develop joint research projects in areas of common interest.
- Manage specific projects of mutual interest and as far as possible with external funding resources.
- Exchange of publications, research activities and any type of academic materials that may be of interest, as well as joint publications.
- Encourage academic mobility of students and teachers.
- Joint organization of seminars, workshops, courses, conferences, and other similar activities related to their academic and scientific programs.
- Creation and organization of double degree or joint degree programs.

## RESEARCH AND TRAINING

### MIRROR CLASSES WITH THE UNIVERSIDAD MARIANA DE COLOMBIA

The Universidad Mariana-Colombia, Psychology Program, Faculty of Humanities and Social Sciences; and the Cesar Vallejo-Peru, Professional School of Psychology, Faculty of Health Sciences, will carry out International Academic Mobility in the 2020-2 semester: MIRROR CLASS, in the academic subject of Psychometry. In this activity, the Head of Research Training and Teaching of the Lima Este Branch will participate. The objective is to strengthen an academic culture mediated by virtual learning tools to internationalize the curriculum.
